

A point charge and a plate

A + point charge near a – plate: the charge is attracted, and the field meets the plate surface at right angles.

How to use. Print at 100% / actual size — each black pattern should measure 5 cm against the scale bar. Cut along the dashed lines, keeping the white border around every code. Lay the cards flat, open Plane AR in Safari and tap Start camera; tap Re-scan for a new layout.
